Children Participate in Local Community Service Project
"Cell Phones for Soldiers" Campaign

Morgantown, WV – March 2005 – Premier Computer Services has teamed up with its

sister company VisionQuest Training Center, both located on 23 South University

Avenue in Morgantown, for the national "Cell Phones for Soldiers" campaign.   Salem

Middle School sixth and seventh grade science students heard about the campaign and

were excited to join the project. They have been Premier and VisionQuest's largest

contributor so far.

- MORE -

Cell Phones for Soldiers was started by two Massachusetts teenagers to help buy calling cards to send to our soldiers serving in the Middle East. Started in April of 2004, Ce*ll Phones for Soldiers* has raised more than $150,000.00 and has sent more than 4,000 prepaid calling cards to our troops.   Additional information can be found at www.cellphonesforsoldiers.com or www.channelone.com.

A recent contribution of 261 cell phones was made by children at Salem Middle School. Ms. Inquinta, sixth and seventh grade science teacher at Salem Middle School, proposed the idea to her students. Their goal is to reach 300 by the end of March. The children thank family members, friends, businesses and teachers for their contributions.

BACKGROUND:

Premier Computer Services was established in 1994 to provide technical services including sales, support, repair, and consulting for Intel PC-based computer systems.   From a modern facility located at 23 University Avenue in Morgantown, West Virginia, we support a customer base which includes West Virginia, Maryland, Pennsylvania, and Ohio.

VisionQuest was launched in 2002 to complement the delivery of high quality hardware and software solutions provided by Software Systems, Inc. and Premier Computer Services. VisionQuest's goal is to enhance the individual's computing experience by uniting people with technology in an atmosphere that maximizes the learning process.
